# INTRODUCTION TO 2020 CATALOGUE

---

## INDIGENOUS. AFRICAN. DESIGN.

It is with great pride and pleasure that we introduce the Ngala Trading 2020 Catalogue.

Over the last four years, we have sought to bring the most beautiful pieces of home decor from across Africa to North America. The journey has been a labor of love and we have never been more excited than to see how our collection has come together this year.

The 2020 Catalogue features more installation pictures from our wonderful clients, images of the talented artisans who make the pieces as well as great lifestyle selections. You will not be disappointed that our most popular pieces remain showcased and with each turn of the page new and exciting products have been added.

We are fortunate to be able to work everyday with women and men who have an amazing vision. They are proud of their African roots and bring a creative side to showcasing the best that Africa has to offer. Whether working with leather, antelope horns, wood, brass, ostrich feathers, porcelains or simply a pillow cover - our makers are dedicated to their craft and we are honored to share their talents with you.

Thank you for remembering our collection for your design projects, for offering pieces in your storefronts or for purchasing items for your own home. From the beginning, Ngala Trading has been about sharing the story and you are all part of that story. Today more than ever, we are inspired by the African proverb "If you want to go fast, go alone. If you want to go far, go together."

We hope you will enjoy the Ngala Trading 2020 Catalogue.

# ABOUT NGALA TRADING

---

CURATED - HANDMADE - LUXURY-MADE IN AFRICA - ETHICAL & SUSTAINABLE

In 2013, we opened our first interior design and home furnishing business out of a neighborhood store in Johannesburg, South Africa. We became popular for blending the modern American staples with an African twist. Think plaid and zebra. In no time, our clients referred their friends to "those American boys" who stocked a curated selection of luxury, handmade products local to Southern Africa.

Two weeks after relocating to New York City in the Spring of 2016, we established Ngala Trading and booked our first trade show spaces in Atlanta and New York. Our first container of merchandise arrived three weeks later, and the rest is history!

In 2019, we opened our permanent showroom in the New York Design Center located at 200 Lexington Avenue on the 4th Floor. This was an exciting step for us as customers no longer had to wait for a trade show to see our collection. We are open to the public year-round every Monday through Friday.

Although we no longer live in South Africa, we return regularly throughout the year to work with our suppliers, develop new offerings and capture more of the stories behind the products.

As Ngala Trading grows, we have not lost the appreciation for what has gotten us to this point. We are grateful to everyone who touches our collection: from the talented artisans at each of our suppliers who make each piece to our freight forwarding team in Cape Town who readies each ocean container with care; from our warehouse team that packs each order to our sales and service team who assists you, our customer.

We appreciate your ongoing support and we look forward to hearing from you soon!.

# CHANDELIERS

Every leather chandelier from Ngala Trading is created entirely by hand in our Johannesburg, South Africa workshop where a small team of dedicated artisans bring “leather to light.”

Ambient light emerges into the room as a soft glow from each style of our UL-listed fixtures.

NG-QUILLCONE-SHADE

(Electrical fitting not included)

Porcupines are famous for their quills which are actually large stiff hairs that help defend the animals against natural predators. The quills are an agricultural by-product that have long been used as decor items. Each quill lampshade is handmade in Cape Town with individual quills woven onto a frame with copper wire.

## CHANDELIER SPECIFICATIONS AND ORDERING

Please refer to the specification sheet for full details on each product. Specification sheets are available for viewing and downloading on our website at [www.ngalatrading.com](http://www.ngalatrading.com).

All of our chandeliers, pendants and wall sconces are UL-listed for dry environments. As a general rule, this means "indoor use only". Please consult your licensed electrical professional if you have questions about an installation in a three-season room, bathroom, etc.

Chandeliers are available in any of the following leather color options: cream-stone, black, anthracite grey, putty grey, crackle-stone, arctic white, champagne, rose gold, silver and gold.  
Complimentary leather samples are available upon request.

We stock regular-size styles of our chandeliers in cream-stone. Large-format sizes as well as other colors are all made as Special Orders, which take between 12-14 weeks from the date we receive your order and a 50% non-refundable deposit.

With the exception of the Small-Long Whisper, Round Small Urchin, both styles of Wall Sconces and the Porcupine Quill Cone Lampshade, all Ngala Trading chandeliers ship via motorfreight.

Buhera baskets are traditionally used for storing grain and beer by the people living in Zimbabwe's Buhera region. The baskets are woven with twine and grass and made only by women. The art of weaving is a coveted skill and passed down from generation to generation. Each woman has her own pattern for the weave, making each basket different. A medium sized basket can take about one week to make.

# THE SABIE SOFA

## LIMITED EDITION

58" W x 38" D x 46" H

SEAT HEIGHT: 18.5" H; SEAT DEPTH: 24" H; INSIDE SEAT WIDTH: 43" W

With the launch of the Sabie Fabric Collection in 2020, two signature Limited Edition Sofas are being offered. Thirty will be made in Tanzanite and thirty in Delta - both in a rich and sensual velvet. The high backs allow for two to sit with dancing elephants juggling a vervet monkey, flanked by travelers riding a giraffe and ostrich. Nearby hippos and crocs cool off in the gently flowing Sabie River waters that inspired the overall Sabie collection design. On the back of the sofa, the elusive King Cheetah with his rare spots and stripes emerges from the shadows of the forest. The sofa's border base and arms are framed with a Zulu beaded striped-like pattern that is so often seen in the bases of Ardmore Ceramic works. These sofas transport us into a magical animal and botanical fantasy.

TANZANITE  
NG-ARD-SAB-LESOFA-TAN

DELTA  
NG-ARD-SAB-LESOFA-DELTA

Founded by South Africans Greg and Roche Dry - Egg is a unique perspective in contemporary furniture inspired with a soul that's deeply rooted in the African continent. Egg, is a spirited blend of heritage, passion, meaning and African soul. It stands the test of time. It's curiosities that make you smile. It's love and truth that can be seen from afar and equally found in the minutest details.

That's why every piece we craft comes from Africa and carries within it a part of the African soul. We're a melting pot of tribal craft, African heritage and modern luxurious expression.

# THE SAFARI CHAIR

22" W x 18" D x 35" H

The Ngala Trading Safari Chair is a contemporary take on an African safari staple: the camp chair. Our version features reclaimed French Oak from decommissioned wine barrels sourced from wine estates in South Africa's Western Cape wine region. Extending the life of this heritage oak into fine furniture preserves its unique character and history through carefully crafted classic and contemporary designs. Each chair frame is made from brandy and red wine barrel staves. The chair comes in two options: Stained Oak and Espresso Leather, or Natural Oak and Hazelnut Leather. A sustainably-sourced Springbok Hide or Zebra Hide chair back is available at an additional charge.

# BESPOKE HORN TABLE

19" DIA x 23" H

Each table base features three sustainably-sourced genuine African antelope horns that have been polished by hand. Our makers select a trio of horns that gracefully arc to a fine but incredibly durable point.

Choose from one of eight table top options in wood, leather or hide to complete the look that fits your taste. Indoor use only.

# OTTOMANS

Our hide ottomans provide a true 'Out of Africa' sense to any space. Each ottoman has been upholstered with ethically and sustainably-sourced hide. By 'upcycling' unused hides from agricultural production, the hides help to fund conservation programs and improve the welfare of communities in Southern Africa where these animals thrive in large, unfenced game reserves.

We believe the use of natural materials and hand crafted elements result in a testament to the unique qualities found in materials originating from nature. As each animal hide is unique, no two ottomans will contain exactly the same pattern or mane.

### GRADE A BURCHELL ZEBRA HIDE

FELTED

*NG-HID-ZEB-FELT*

The Burchell Zebra is the most common and abundant species of plains zebra in Africa. A member of the horse family, zebra can be found in most Savannah environments including southern and eastern parts of Africa. The average size of a zebra hide is 8-9 ft long x 64" wide.

Hides come in varying qualities. Ngala Trading specializes in "A-Grade" hides, which are characterised by relatively few natural scars.

Derived from the elegant design of the new Sabie fabric collection from Ardmore Designs, the "Cheetah Kings" design features a pair of King Cheetah who dance across a velvet pillow with entwined tails. The design focuses on the exotic spots and stripes of this elusive, almost mythical cat who exists but is rarely seen.

The Zulu tribe associate this animal with myth and folklore because it appears sensuous and elegant in one's dreams.

Coordinating fringe.

Every Ardmore pillow is individually cut and sewn in Johannesburg, South Africa.

NG-ARD-SAB-CUSHCKFDS-16

Ardmore Design was established as an extension of Ardmore Ceramic Art, producing beautifully designed fabric, soft-furnishings, and lifestyle products for the home. The designs created for these items are inspired by the art elements of the ceramic pieces from Ardmore Ceramics which is known for its ornate ceramic art pieces and was established by Fée Halsted who is the creative force behind it all.

Lisa Firer Design is a small-scale ceramic design and production studio based in Cape Town, South Africa. Lisa and her team work with the uniqueness that high fired porcelain clay develops through the hand making and firing process. Established in 1996, Lisa Firer Design artisans slab-build using textured and colored porcelain. Lisa's designs reference fabric, patchwork, paper and origami, embossing and debossing; light and layering. Textiles are a huge inspiration. Their work is made of thin hand-rolled slabs of clay with patches, textures, seams and layering. The end result is a lovingly, created ceramic.

SMALL: 9" DIA x 3.5" H, *NG-VETBASK-SM*

This nest-shaped basket not only is inviting to the touch ... but also to the nose! Vetiver oil is the fragrant base of many potpourris, hand lotions and soaps. Our buyers source these clever baskets from Madagascan crafts families who weave them by hand after essential oils used in the manufacturing of perfume have been extracted. Previously incinerated, the dried roots are the latest way of "upcycling" industrial byproduct. Vetiver plants also play an important role in land stabilization and prevention of erosion in Madagascar.

Juju hats are traditionally worn by village chiefs during celebrations as a symbol of status within their societies...

ON STAND

Natural or dyed bird feathers are carefully hand sewn onto a raffia base, which spreads out into a huge circle...

ON STAND

Feathers are associated with beauty and are a symbol of prosperity and wealth. These sought-after hats are available in various colors, and can be displayed on stands or hung on a wall.

**RECYCLED GHANAIAN GLASS BEADS - LOOSE**

SMALL : 2" W x 12" L  
 LARGE: 3" W x 14.5" H

**BEADS**

Glass beads have been made for centuries throughout Africa. In Ghana, they were originally made from local clay containing silicone. Then, with the influx of European traders, it became easier to make them using discarded bottles and medicine jars. Apart from their adornment value, beads have been widely used as a form of barter. They also indicate status and rank and are a symbol of prosperity. Recycled glass beads have a grainy texture and are sometimes referred to as "sand glass" beads as the temperatures in the primitive furnaces were never high enough to petrify the silica/sand completely.

# FABRIC

# SABIE FOREST

Sabie Forest is the signature design of the Ardmore Sabie Collection. It encapsulates the vibrancy and richness of the South African bush. Mischievous monkeys hang off of elephants' trunks, giraffe and snakes mingle amid patterned reeds and foliage and an elusive striped and spotted king cheetah cavorts through a leafy glen.

## DELTA

LINEN: 70% LINEN / 30% VISCOSE. 55" WIDE

VELVET: 49% VISCOSE / 42% COTTON / 9% POLYESTER. 54" WIDE

# CAMP CRITTERS

In contrast to the Sabie Forest, Camp Critters is a more gentle and relaxing fabric design. It focuses on camp birds and smaller beasts who find refuge in this sanctuary. As the sun sets and the heat abates in the South African bush, genet cats, bush babies and owls celebrate the night life all among exotic and sensual smelling moonlit flowers.

### FABRIC SPECIFICATIONS:

# CHEETAH KINGS

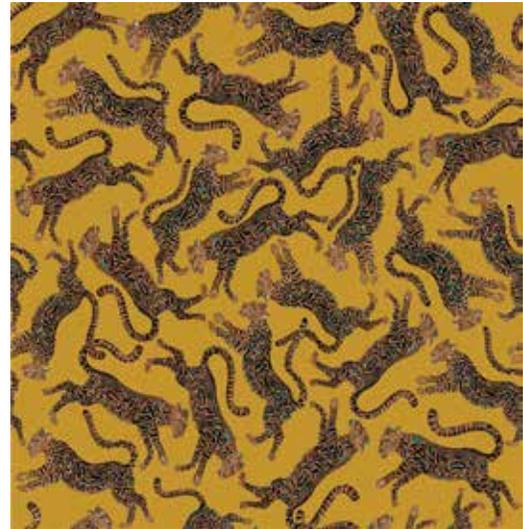

The King Cheetah is an elusive cat that is rarely seen in the wild. The Cheetah Kings fabric pattern is made up solely of two King Cheetahs who dance across the fabric with entwined tails. The design focuses on the exotic spots and stripes of the cat. We associate this cheetah with myth and folklore because it appears sensuous and elegant in one's dreams.

## FEATHER

The final design of the Zambezi Collection has been taken from the natural geometric patterns that occur on the wings of African birds. Evolved from the scales of reptiles, feathers set birds apart from all other animals and are necessary for flight, insulation and courtship displays.
