This item is customizable in stone options and finishes. Please use the Contact Us button with your requirements.

Cosulich Interiors in collaboration with Matlight Studio: this organic table lamp embodies beauty, functionality and efficiency as it is cordless and can be moved around very easily, ideal for spots without plugs like the outside. It is entirely handmade in Italy, the design emphasizes the properties of alabaster as a diffuser, with its crisp color and texture of its veins that are always different from each other, producing a unique piece every time and recalling the magic atmosphere of full moon nights. The sphere (6.3 in. in diameter) is wireless, fitted with a dimmable Led light source, it comes with its raised charging base (4.8 in diamond x 0.75 in H) and remote control with timer and various settings. Ideal for a gift, for outside or restaurant tables, or to create a special atmosphere. This similar design is also available not wireless with round or square brass base, as a wall light, and a pendant, part of our Alabaster Moon collection, contact us for details.
