Cosulich Interiors in collaboration with Matlight: An Art Deco style organic table or desk lamp with a retro aesthetic, handcrafted in limited series of 10 pieces in Italy. The aerodynamic flat design shade, raised on an elegant bronze finish conical stem, is in alabaster that highlights a play of transparencies, stressing the veining of this material. The pull chain switch recalls the vintage style. The combination of warm colors and precious materials, like the alabaster and the bronze metal structure, makes this lamp a very unique and sophisticated functional object. Customizable with options for stones and finishes.
