BROWN JORDAN

DESIGNER INSPIRATION

After a trip up the coast, Ann fell in love with the visuals of the sport of polo. The wood of the mallet, the horse irons, and the lushness of the outdoor green fields inspired her to bring it all together to create this collection. The curve of the chair was inspired by the shape of the polo irons. The perfect balance between the softness of the teak arms against the strength of the metal frames capture the essence of the polo mallet.

FEATURES

- Meticulously balanced warm teak accents juxtaposed against a sturdy powder-coated aluminum frame or all aluminum construction
- Powder-coated aluminum frames available in all Brown Jordan finishes
- Luxuriously plush cushions to create supremely comfortable seating options

BENEFITS

- Teak accents deliver mixed material construction with complementing elements while contrasting powder-coated aluminum finishes allow for an endless array of customizable options
- Boasting high-resiliency performance upholstery fabric, seat cushions are available in all Brown Jordan fabrics
- Collection includes our largest dining table offering at 120" long by 44" wide
